Total Payment Enclosed	\$	

Make Check Payable To: *Department of Revenue*

PUBLIC TIMBER SALES

Detail Page Instructions

A separate Detail Page must be completed for each Public Sale Contract. Use the pre-printed Summary Page for the information in block 1 through block 8. Your Tax Reporting Account Number is the 9-digit number printed above your name on the front of the tax return. The first 3 digits are 800. Note: the Summary Page may not list all of your current or working contracts. However, you must report all active contracts.

Block 9 - Enter sale name assigned by the selling agency.

Block 10 - Enter number of acres actually logged this quarter.

Block 11 - If the harvest is complete and taxes are paid, please mark the *close* box.

Block 12 - Check to indicate whether this FPA/Contract is eligible for the salmon credit.

Block 13 - Volume harvested this quarter.

From the list below, enter the species code and volume harvested (rounded to nearest MBF) this quarter for each species:

Douglas Fir	DF	White Pine	WP
Western Hemlock (includes other conifer)	WH	Lodgepole Pine (also other pines)	LP
Ponderosa Pine	PP	Other Hardwoods	OH
Western Redcedar	RC	Chipwood	CHW
Red Alder	RA	Small Logs	SML

To convert tonnage to board feet, divide the tons by the following conversion factors:

SVA 1 through SVA 5 and SVA 10

Conifer - Chipwood (Pulp) Tons Divided by 9.0	=		MBF
Sawlog Tons Divided by 8.0	=		MBF
Hardwood Sawlog or Chipwood Tons Divided by 8.5	=		MBF

SVA 6 and SVA 7

Conifer Tons Divided by 6.5	=		MBF
TOTAL VOLUME			MBF

Round the board feet to the nearest thousand. (Example, if volume is 15,279 board feet, report as 15 or 15 MBF.)

Block 14 - Taxable Stumpage Value - For all timber sold by the government agencies by competitive bidding, the taxable stumpage value is the actual amount paid for stumpage in cash or other consideration. The information requested in Block 14 is available from the selling agency.

Line A - Enter the sum of all timber charges (include cull charges and per acre material; do not include Access Road Revolving Fund or associated charges) for this quarter.

Line B - (DNR and all other non-Federal public timber sales.) If the selling agency appraises the value of the contract requirements for constructing roads and/or provides other consideration in lieu of cash, enter the appraised value. If the selling agency does not provide an appraisal, the taxable value shall be the actual costs incurred by the purchaser.

Include all consideration that has value lasting beyond the timber sale such as bridges, gates, cattleguards, trail construction, stock piling of rock products and road. All roads that have been constructed or reconstructed and used for harvesting timber under this contract shall be taxable unless they were obliterated. All abandonment and obliteration work completed on roads NOT USED to transport timber from this sale is taxable. Obliteration means to entirely eliminate the road by removing drainage structure, ripping the grade, filling in the ditches and re-shaping the slope.

Line C - Ineffective road credits apply only to USFS sales. Enter that part of permanent road credit that is not allowed on the sale. Ineffective road credits will be determined after the U.S. Forest Service closes the sale. The value may be reported as a supplemental return for the quarter in which the final harvest was reported.

Line D - Quarterly escalation applies to USFS sales. Enter the adjustment to the timber charges as shown on the quarterly escalation statement.

Line E - (DNR scale sales) Enter the cash charges for hardwoods on the day of sale. The charges must be reported in the first quarterly return for that sale.

Line F - Enter any other adjustments that may be needed to correct the timber charges in line A. **Examples:** Additional timber added to the sale or deductions for falling, bucking and yarding when decked logs are purchased. (Include an explanation of other adjustments on the lines provided at the bottom of Detail Page).

Line G - Taxable Stumpage Value. Enter the sum of line A through line F. Transfer the taxable value from line G to the Summary Page. Enter the taxable value in the column opposite the correct Section, Township and Range from which harvest occurred.

Line H - Salmon Credit. If the salmon credit is allowed for this FPA, multiply the total taxable stumpage value (block G) by 0.8% (.008). This is the amount of your salmon credit. Transfer the amount of credit on line H to the *Amount of Salmon Credit* column on the summary page in the row that corresponds to this FPA/Contract Number.

HARVEST FROM PUBLIC LAND

Quarter	Year
---------	------

Detail Page _____ of _____.

- Attach a separate detail page for each contract number. Additional detail pages will be provided on request.
- This Detail Page may be used for U.S. Forest Service (USFS), State Department of Natural Resources (DNR) or any other public timber sale. Please read the instructions carefully. Reporting procedures vary depending on who the seller is.
- Non-competitive sales must be reported using Private Detail Pages and the Stumpage Value Tables. However, the pre-printed Public Summary Pages must be attached.

FOREST EXCISE TAX RETURN

Instructions

The first page of the Forest Excise Tax Return is the Summary Page for the return. A Detail Page or several Detail pages will first need to be completed before completing this Summary Page. Detail Page instructions are on the reverse side of the Detail page.

Errors and Omissions - If there are errors or omissions in the pre-printed information on the Summary Page, line out the errors. Enter omitted permits or contracts and their legal description.

Sections With No Harvest - A column indicating (✓) **No Harvest** is on the Summary Page. Check this column if no harvest occurred on a specific section.

Closing Your Forest Excise Tax Account - Two columns indicating "check to delete (✓)" are on the Summary Page.

- **Delete Section** - Only check if the specific section should be deleted.
- **Delete Public Sale Contract Number** - Check only if all sections for this specific contract number are to be deleted. **CAUTION:** A deleted contract number indicates that harvest is **totally completed for all** sections under the contract.

Salmon Credit - The term *salmon credit* relates to the provisions set forth in 1999 1st Special Session Wash. Laws Ch. 4 Sec. 401. Under this section of the law, taxpayers are allowed a credit (referred to as the salmon credit in the tax forms and instructions) for timber harvested under a Department of Natural Resources (DNR) approved Forest Practices Application (FPA)/Contract Number subject to enhanced aquatic resource requirements. Look for the 'Y' (yes) in the salmon credit column on the summary page of your tax return to determine if the DNR has approved your FPA(s)/Contract Number(s) for this credit.

The Forest Excise Tax rate remains unchanged at 5% of taxable stumpage value. Under the Salmon Credit, eligible FPAs will receive a credit equal to 0.8% of taxable stumpage value. Instructions to calculate the Salmon Credit are provided in the detail page instructions and on the detail page of your tax return. **Please follow these instructions to ensure you receive the proper credit.**

Property Tax Credit - Applies to Public Timber **only** for personal property tax paid on those Public Timber sales purchased after August 1, 1982. An original Personal Property Tax Credit Application with the signatures of the county assessor or deputy and county treasurer or deputy must be attached to

the Forest Tax Return in order to receive credit allowance. The application forms are available in your county assessor's office or the Department of Revenue Forest Tax office in Olympia. Enter the credit amount in the space provided for the PPTC and deduct from the amount of tax due.

Penalty - Penalty is computed as follows: Tax Due minus any credits, multiplied by the appropriate penalty percentage rate. Please do not round the penalty amount to the nearest dollar. The minimum amount of penalty is \$5.00 for any late filing. Return must be postmarked by the due date to avoid penalties.

Penalty is assessed as follows:

- 5% penalty assessed after due date;
- 10% penalty assessed after the last day of the month following the due date;
- 20% penalty assessed after the last day of the second month following the due date.

COMPUTATION:

- **Grand Total Taxable Stumpage Value** - Add the Total Taxable Stumpage Value column. Enter the amount in the Grand Total Taxable Stumpage Value block at the bottom of the Summary Page.
- **Tax Due** - Multiply the Grand Total Taxable Stumpage Value amount by the current rate and enter the tax due in this block. Please do not round the tax due to the nearest dollar. If the tax due is less than \$50.00, do not pay. However, the return must be completed and mailed.
- **Previous Credit** - When entering credit(s), attach a copy of the credit note(s) to your tax return.
- **Salmon Credit** - Add all credit amounts in the Amount of Salmon Credit column on the summary page. Enter this amount in the Less Salmon Credit box at the bottom right side.
- **Total Payment Enclosed** - Tax due minus credits, plus penalty equals total payment. Please do not round total payment to the nearest dollar. **Make check payable to: Department of Revenue.**

Signature and Telephone Number - Sign your name in the signature space. Enter your daytime telephone and area code number. Enter the date.
